

Logitech®

NX50

Notebook Laser Mouse

Mobile precision at the price of simplicity!

The NX50 is a practical and precise notebook mouse that users can wrap, pack and use everywhere. Its laser optical engine with 1000dpi resolution provides exceptional tracking precision on any work surface, especially high-gloss surfaces that traditional optical mice can't navigate. The NX50, with an attractive new paint finish, features a shock-resistant bumper which easily withstands bumps on the road, while the integrated cord wrap makes the NX50 easy to stow. USB connector; no set-up required; simply plug and play. Certified for Premium editions of Windows Vista™. The white box commercial package has been optimised for the reseller channel.

High Performance Laser

- 20X more tracking power than standard optical mice
- Amazing accuracy on more surfaces – tracks flawlessly on high-gloss surfaces, unlike LED-based mice
- The precise nature of laser allows this mouse to track on the different surfaces a mobile mouse needs to navigate
- 1000 dpi resolution

Cord Wrap design

- Integrated Cord Wrap and Snap enables the user to wind the cord neatly into the mouse - Easy packing, no tangles, no unraveling.

The USB connector snaps securely to the underside of the mouse and protects the optical lens.

Shock resistant bumper

- Its polymeric bodywork easily withstands bumps on the road, offering mobile users the durability they need

Plug-and-play – no setup necessary

Products for OEM & Business
